

Industry: Electrical

".....since I introduced TSM-Service Management software, Thermofix has been selected twice as a Finalist in the Telstra ACT Micro Business Awards in 2001 & 2003.

Thank you for your support."

Sam Kerekes
Service Manager
Thermofix Australia

"Our job cost tracking is now more accurate and easier to administer. Our Construction projects are easily monitored and we find the summary function very useful."

Greg Crisp
General Manager
Key Services

"TSM has given our business a massive benefit in various areas of the company.

I estimate that by using TSM it will save our company \$108,000 in the next 12 months.

I recommend TSM to any company in the service industry as my business tool of choice."

Frank Spiteri
Managing Director
A & F Electrical

"In general I am enthusiastic about TSM and I am even more enthusiastic about the changes that the system has made to my business.

I have recouped my investment on TSM within 2 months and am looking forward to the future and what the product will deliver to my business."

Mark Larsen
Managing Director
Australian Data Industries

"We implemented TSM into our business last year. We are now able to manage technician's time and jobs more effectively and we can actively measure productivity and profitability.

This system has become the control centre for our business rather than "my head" and I have finally taken holidays and not come back to a mess."

David Hills
Managing Director
Auslite Electrical Contracting
